Communication LEGO®.

A great game to demonstrate communications skills.

GEAR REQUIRED::

- 2 matching sets of LEGO, to make things visible DUPLO is better because of its size.
- 2 x Radios (Kids toy CB’s aren’t too bad)
- Two locations, not line of sight

THE GAME::

Split into two teams: 1. Building – 2. Copying

One person from each team is comm’s officer (they have the radio)

The “Building” team places one block at a time, their comm’s officer relays the details of each block to the “Copying” team

The idea is for the Copying team to end up with exactly the same structure as the Building team put together

The two teams then swap roles and see how they go.

Clear, concise instructions and good listening skills will produce ideal results.
